Continuation of Substance of Interview including description of the general nature of what was discussed:

The examiner's amendment was agreed to and authorized by Mr. Bailey in order that (i) the recitation of claim 7 has proper antecedent basis, (ii) claim 9 recites proper Markush group, and (iii) it is clear in claim 14 that the silicone graft polymer is "obtained from" an acrylic compound. Support for the amendment to claim 14 is found, for instance, on pages 14-15 of the present specification.
